Harshit Kalra

Gurugram, Haryana, India | +91 8800932427 | kalra.harshit04@gmail.com | linkedin.com/in/harshitkalra04 | github.com/HarshitKalra04

PROFESSIONAL SUMMARY

Computer Science graduate specializing in Data Science with hands-on experience in Python, SQL, machine learning, Generative AI, LLM evaluation, and software testing. Skilled in Pandas, NumPy, Matplotlib, Scikit-learn, OpenAI API, and Google Gemini API. Experienced in evaluating multi-turn AI model outputs, providing structured feedback for post-training, and testing production software.

TECHNICAL SKILLS

Python, SQL, Pandas, NumPy, Matplotlib, Scikit-learn, Machine Learning, Generative AI, OpenAI API, Google Gemini API, Prompt Engineering, LLM Evaluation, LLM Post-Training, MySQL, Git, Git Hub, Interpersonal awareness, Leadership, Work ethics, Adaptability, Problem solving, Brainstorming, Quick learner

EXPERIENCE

Ethara.AI — LLM Post-Training Intern | Dec 2025 – Mar 2026

- Evaluated and rated text- and image-based LLM responses across multi-turn prompts and multiple projects.
- Assessed instruction following, truthfulness, verbosity, writing style, relevance, and overall response quality.
- Provided structured feedback and annotations to support model post-training and response-quality improvements.

ValleSoft — QA Intern | Jun 2025 – Jul 2025

- Performed end-to-end functional, UI, regression, and performance testing for the Minus App.
- Identified, documented, and tracked defects while collaborating with developers and the product team.
- Supported production readiness and contributed to the app's successful live release.

PROJECTS

AgroVision — AI-Powered Sustainable Farming Platform | React, FastAPI, PostgreSQL, OpenAI GPT-4, Google Gemini

- Built a full-stack platform for AI-based crop disease diagnosis and sustainable agricultural learning.
- Integrated dual-AI analysis, multilingual support, leaderboards, streaks, and actionable treatment recommendations.

Bank Analytics — Banking Forecasting and Risk Platform | Prophet, Scikit-learn, FastAPI, PostgreSQL, React/Vite, Docker

- Developed a banking analytics platform for financial forecasting and loan-risk prediction.
- Built APIs, interactive dashboards, machine-learning workflows, and Dockerized deployment components.

FitBlast — Fitness Tracking Web Application | Node.js, Express.js, MySQL, HTML, CSS, JavaScript, JWT

- Developed a fitness tracking platform with secure authentication, workout tracking, posts, and likes.
- Worked on API integration, database design, and modular UI implementation.

Team Task Manager — Project Management Platform | Node.js, Express.js, PostgreSQL, Prisma, React/Vite, Tailwind CSS, Docker

- Built a task management platform with JWT authentication, role-based access control, REST APIs, and dashboards.
- Implemented project/task workflows and responsive full-stack architecture.

EDUCATION

- B.Tech in Computer Science and Engineering (Data Science), The NorthCap University | 2026
- Class XII, Kendriya Vidyalaya | 2022

CERTIFICATIONS & ACHIEVEMENTS

- AWS Academy Graduate — AWS Academy Data Engineering
- Microsoft Certified — Azure AI Fundamentals
- Advanced MongoDB Certification
- Smart India Hackathon 2025 Grand Finalist — All-India Software Edition

LEADERSHIP & ACTIVITIES

- President, Career Service & Alumni Relations (CSAR), The NorthCap University | 2025–26
- Vice President, CSAR, The NorthCap University | 2024–25
- Member of administrative board of Unnat Bharat Abhiyan (UBA), NCU (2024-26)
- Member, NSS, Ministry of Youth Affairs & Sports, Government of India | 2022–26
- Core Coordinator, Annual Cultural & Technical Fest, NCU | 2025
